- "We use Metizoft's completion for safe storage and control of drawings and documents for all our ships. The crew is very happy because the database is quick and easy to search using the SFI structure. This is a great tool!"

Svein Johnny Naley, VP Marine Projects Polarcus

Completion is a complete document handling platform from cradle to grave. This is your ultimate tool for construction & commissioning of marine projects. The platform is based on the SFI structure and is an important tool. It works on all major platforms, and is easy to update.

- We don't provide a complete toolset of services. We specialize in online storage and the retrieval of documents you need and definitely need to upload in your daily work.

- Strong search facilities for finding documents quickly.
- PDF-format is the preferred format, but any file format can be stored.
- Built using modern web standards.
- Available 24/7 anywhere, anytime.
- Offline installation
- Updates are automatically synced on a day to day basis.
- Guarantees a 99,99 % online capability and a two-location backup facility.
- Using our unique search technology, finding documents is easy
- Seminars to make the most out of using our platform
- Standard or premium support
