

MARITIME ADVISORS

- "Metizoft engineers/advisors have a long and valuable experience. We have used Metizoft to participate in some projects, and they have always delivered according to expectations."

Robin Tomren, Maritime Technical Manager, Petroleum Geo-Services

Metizoft AS is a consulting engineering firm with focus on project management and quality control as well as project support to the shipbuilding industry and the oil industry, home to abroad. Metizoft AS is run by engineers with heavy experience in ship and offshore areas, and we feel well-grounded in these segments.

We have participated in projects for the marine & oil industry world wide and can deliver well experienced personnel in projects world wide.
